

## Dop pomp Damen 3530 LD.

 +31 485 335170

Suction diameter	350 mm
Discharge connection diameter	350 mm
Spherical pump passage	200 mm
Flange dimensions	O.D. 505 mm; PCD 460mm, 15 x ø22mm
Length	4,0 meter
Width	2,0 meter
Height	1,8 meter
Weight	4.300 kg
Diesel engine Volvo Penta	564 kW / 767 HP
Oil flow and max. work pressure	800 l/min and 350 bar
Hydraulic oil capacity	2.000 liter
Jetpump Unit diesel engine DAF	146 kW / 200 HP
Jetpump diameter	150 mm
Advised minimum available capacity	300 – 475 m3/hr at 5 bar
Features	Hydraulic Power Unit 800 PVE Working depth max. 40 m1 (standard) Deeper is possible with special adjustments Also useful as a booster pump
Optional	Hydraulically driven cutter unit Various other suction heads Auger cutter unit for environmental purposes
