

Dynamic sieve deck Vibra snap.

+31 485 335170

Sieve Vibrating Poly Urethane deck	4,0 mm
Sieve Area	10,0 m ²
Max. Input water / slurry mixture (Q _{max})	700 m ³ /hr (depends on density)
Length Vibra Snap Unit (incl. container)	8.05 meter
Width Vibra Snap Unit (incl. container)	2.48 meter
Height Vibra Snap Unit (incl. container)	5.4 meter
Max. Storage capacity dredge container	32,0 m ³
Weight Vibra Snap and container (empty)	8.00 and 5.00 tons
Jet pump Tsurumi	400 V AC, 26.5 kW (input)
Vibra Snap	400 V AC
Features	The amplitude of the sieve deck can be adjusted Optional is a storage container with an internal jet system (6 separate jet nozzles) to eliminate sedimentation of slurry (clogging) in the container
